Gentlemen:

Please find enclosed the draft document Technical Memorandum No. 11 (TM 11) entitled "Development and Screening of Remedial Action Alternatives" for Operable Unit No. 1 (OU 1). We would appreciate it if you could review the enclosed document and provide comments to the Department of Energy Rocky Flats Field Office by May 26, 1994 (20 days). However, we would like to schedule a working meeting with your staff the week of May 9 to present and discuss the material in TM 11. The purpose of this meeting will be to clarify and discuss the material in this TM after your staff has had a chance to initially screen the document, but before comments are developed. We feel that these types of meetings can help accelerate the schedule for Corrective Measure Studies/Feasibility Study activities.

If you have any questions regarding the above material, please contact Scott Grace of my Staff at 966-7199.

Sincerely,

Jessie Roberson
